

## Notice of Resumption of Seawood Hotel Business

We have been closed the whole building for a long time due to the influence of the new coronavirus. We were able to resume the business of the entire building."

Starting on Saturday, June 12, we will reopen our hotel, restaurant, and all other facilities.

In order to prevent the spread of the new coronavirus, our hotel employees will continue to provide services with gloves, masks, etc. in place. Your understanding and cooperation are appreciated.

At the Seawood Hotel, employees are required to thoroughly implement hygiene control, such as washing their hands, and to wear a mask at the time of check-in and in shared spaces to ensure the safety and security of customers.

We also prepared disinfectant alcohol for each facility and restaurant.

We ask you to use this service for your cooperation in hygiene, such as moving or going out and returning to the office.

Going forward, we will carefully gather information from the government notification of the new coronavirus, Okinawa prefecture, and local governments, and strive to ensure that our customers can enjoy their stay at the hotel in a comfortable manner.
